# **SAFETY DATA SHEET**

# **E85**

Infosafe No.: LQ2ZX ISSUED Date : 24/02/2022 ISSUED by: UNITED PETROLEUM PTY LTD

#### Section 1 - Identification

Product Identifier E85

Company Name UNITED PETROLEUM PTY LTD

#### Address

600 Glenferrie Road Hawthorn Vic 3122 AUSTRALIA

**Telephone/Fax Number** Tel: (03)9413 1400 Fax: (03)9413 1401

Emergency Phone Number 1300 131 001

**Recommended use of the chemical and restrictions on use** Ethanol based fuel.

#### **Other Names**

Name	Product Code
ETHANOL 85	
85% ETHANOL + 15% PULP	
85% ETHANOL + 15% ULP98	
85% ETHANOL + 15% PREMIUM UNLEADED PETROL	

#### **Illicit Drug Precursors**

This product contains a Category III: Illicit Drug Reagent/Essential Chemical in the Code of Practice for Supply Division into Illicit Drug Manufacture.

#### Section 2 - Hazard(s) Identification

#### GHS classification of the substance/mixture

Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Acute toxicity: Category 4 - Dermal

Acute toxicity: Category 4 - Inhalation

Acute toxicity: Category 4 - Oral

Aspiration hazard: Category 1

Carcinogenicity: Category 1B

Eye damage/irritation: Category 2A

Flammable liquids: Category 2

Germ cell mutagenicity: Category 1B

Skin corrosion/irritation: Category 2

#### Signal Word (s) DANGER

#### Hazard Statement (s)

H225 Highly flammable liquid and vapour.
H302 Harmful if swallowed.
H304 May be fatal if swallowed and enters airways.
H312 Harmful in contact with skin.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H332 Harmful if inhaled.
H340 May cause genetic defects.
H350 May cause cancer.

#### Pictogram (s)

Exclamation mark, Health hazard, Flame

#### **Precautionary Statement – Prevention**

P201 Obtain special instructions before use.

- P202 Do not handle until all safety precautions have been read and understood.
- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P233 Keep container tightly closed.

- P240 Ground and bond container and receiving equipment.
- P241 Use explosion-proof [electrical/ventilating/lighting] equipment.
- P242 Use non-sparking tools.
- P243 Take action to prevent static discharges.
- P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
- P264 Wash skin thoroughly after handling.
- P270 Do not eat, drink or smoke when using this product.
- P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

#### **Precautionary Statement – Response**

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor

P330 Rinse mouth.

P331 Do NOT induce vomiting.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

P332+P313 If skin irritation occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical advice/attention.

P308+P313 IF exposed or concerned: Get medical advice/attention.

P312 Call a POISON CENTER/doctor if you feel unwell.

P370+P378 In case of fire: Use carbon dioxide, dry chemical or foam. (Alcohol resistant foam is preferred. If not available normal foam can be used.) to extinguish.

#### **Precautionary Statement – Storage**

P403+P235 Store in a well-ventilated place. Keep cool. P405 Store locked up.

#### Precautionary Statement – Disposal

P501 Dispose of contents/container to an approved waste disposal plant.

#### **Other Information**

This product contains an Ototoxic substance.

Combination with noise exposure, even at safe levels, could still cause auditory injuries and hearing loss.

#### Section 3 - Composition and Information on Ingredients

Ingredients				
Name	CAS	Proportion		
Ethanol	64-17-5	85 %		
Premium unleaded petrol (PULP98)		15 %		
Additives		Trace		

### Ingradiante

#### Section 4 - First Aid Measures

#### Inhalation

If inhaled, remove affected person from contaminated area. Apply artificial respiration if not breathing. Seek medical attention.

#### Ingestion

Do NOT induce vomiting. Wash out mouth and lips with water. Where vomiting occurs naturally have affected person place head below hip level in order to reduce risk of aspiration. Seek immediate medical attention.

#### Skin

Remove all contaminated clothing immediately. Wash affected area thoroughly with soap and water. Wash contaminated clothing before reuse or discard. Seek medical attention.

#### Eve

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing for several minutes until all contaminants are washed out completely. Seek medical attention.

#### **First Aid Facilities**

Eyewash, safety shower and normal washroom facilities.

#### Advice to Doctor

Treat symptomatically.

#### **Other Information**

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

#### **Section 5 - Firefighting Measures**

#### **Suitable Extinguishing Media**

Carbon dioxide, dry chemical or foam. Alcohol resistant foam is preferred. If not available normal foam can be used.

#### **Unsuitable Extinguishing Media**

Do not use water jet.

#### **Hazards from Combustion Products**

Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including carbon monoxide, carbon dioxide and oxides of nitrogen.

#### Specific hazards arising from the chemical

Highly flammable liquid and vapour. Vapour/air mixtures may ignite explosively. Flashback along the vapour trail may occur. Runoff to sewer may create fire or explosion hazard.

#### Hazchem Code

•3YE

#### **Decomposition Temperature** Not available

#### **Precautions in connection with Fire**

Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) operated in positive pressure mode. In case of fire the product may be violently or explosively reactive. Use water spray to disperse vapours. This product should be prevented from entering drains and watercourses.

#### Section 6 - Accidental Release Measures

#### **Emergency Procedures**

Wear appropriate personal protective equipment and clothing to prevent exposure. Extinguish or remove all sources of ignition and stop leak if safe to do so. Increase ventilation. Evacuate all unprotected personnel. If possible contain the spill. Place inert absorbent, non-combustible material onto spillage. Use clean non-sparking tools to collect the material and place into suitable labelled containers for subsequent recycling or disposal. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

#### Section 7 - Handling and Storage

#### **Precautions for Safe Handling**

Wear appropriate personal protective equipment and clothing to prevent exposure. Handle and use the material in a wellventilated area, away from sparks, flames and other ignition sources. Have emergency equipment (for fires, spills, leaks, etc.) readily available. Work from suitable, labelled, fire-resistant containers. Open containers carefully as they may be under pressure. Keep containers tightly closed. Flameproof equipment is necessary in areas where the product is being used. Take precautionary measures against static discharges. Earth or bond all equipment. Do not empty into drains. Ensure a high level of personal hygiene is maintained when using this product, that is, always wash hands before eating, drinking, smoking or using the toilet facilities. Avoid exposure. Do not handle until all safety precautions have been read and understood.

#### Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area away from sources of ignition, oxidising agents, strong acids, foodstuffs, and clothing. Keep containers closed when not in use, securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Have appropriate fire extinguishers available in and near the storage area. Take precautions against static electricity discharges. Use proper grounding procedures. Ensure that storage conditions comply with applicable local and national regulations.

For information on the design of the storeroom, reference should be made to Australian Standard AS1940 - The storage and handling of flammable and combustible liquids.

#### **Section 8 - Exposure Controls and Personal Protection**

#### **Occupational exposure limit values**

No exposure standards have been established for this material. However, the available exposure limits for ingredients are listed below:

Ethanol TWA: 1000 ppm, 1880 mg/m<sup>3</sup>

TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eighthour working day, for a five-day week. Source: Safe Work Australia

**Biological Monitoring** No biological limits allocated.

Control Banding

Not available

#### **Engineering Controls**

This substance is hazardous and should be used with a local exhaust ventilation system, drawing vapours away from workers' breathing zone. A flame-proof exhaust ventilation system is required. If the engineering controls are not sufficient to maintain concentrations of vapours/mists below the exposure standards, suitable respiratory protection must be worn. Refer to relevant regulations for further information concerning ventilation requirements.

Refer to AS 1940 - The storage and handling of flammable and combustible liquids and AS/NZS 60079.10.1 Explosive atmospheres - Classification of areas - Explosive gas atmospheres, for further information concerning ventilation requirements.

#### **Respiratory Protection**

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements.

Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

#### **Eye and Face Protection**

Safety glasses with side shields, chemical goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/ face protection will vary according to individual circumstances. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 (series) - Eye Protectors for Industrial Applications.

#### **Hand Protection**

Wear gloves of impervious material such as PVC or neoprene. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations.

Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

#### **Thermal Hazards**

No further relevant information available.

#### **Body Protection**

Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

Properties	Description	Properties	Description
Form	Liquid	Appearance	Clear - pale yellow liquid
Colour	Clear - pale yellow	Odour	Characteristic fuel odour
Melting Point	-117°C (Ethanol)	Boiling Point	78°C (Ethanol) 25-228°C (Unleaded petrol)
Decomposition Temperature	Not available	Solubility in Water	Complete (Ethanol) Negligible (Unleaded petrol)
Specific Gravity	0.79-0.81 (Ethanol) 0.73 (approximate)(Unleaded petrol)	рН	Not available
Vapour Pressure	44mmHg (20°C) (Ethanol) 35-90kPa (Unleaded petrol)	Relative Vapour Density (Air=1)	1.59 (Ethanol) 3.5 (Unleaded petrol)
Evaporation Rate	253 (Ethanol) (n-Butyl acetate= 100)	Odour Threshold	Not available
Viscosity	Not available	Volatile Component	100%
Partition Coefficient: n- octanol/water (log value)	Not available	Flash Point	13°C (Ethanol) -40°C (Unleaded petrol) Method: Abel closed cup
Flammability	Highly flammable	Auto-Ignition Temperature	392°C (Ethanol) >250°C (Unleaded petrol)
Flammable Limits - Lower	3.5% (Ethanol) 1% (Unleaded petrol)	Flammable Limits - Upper	19% (Ethanol) 8% (Unleaded petrol)
Particle Characteristics	Not applicable		

#### **Section 9 - Physical and Chemical Properties**

#### Section 10 - Stability and Reactivity

#### **Chemical Stability**

Stable under normal conditions of storage and handling.

# Possibility of hazardous reactions

Not available

**Conditions to Avoid** Heat, open flames and other sources of ignition.

#### **Incompatible Materials**

Incompatible with oxidising agents (eg. Hypochlorites, peroxides), acids (sulphuric acid), strong alkalis (eg. Hydroxides).

#### **Hazardous Decomposition Products**

Thermal decomposition may result in the release of toxic and/or irritating fumes and gases including oxides of nitrogen, carbon monoxide and carbon dioxide.

**Reactivity and Stability** Reacts with incompatible materials

# Hazardous Polymerization Will not occur.

#### Section 11 - Toxicological Information

#### **Toxicology Information**

The available acute toxicity data is given below.

Acute Toxicity - Oral LD50 (rat): 7060 mg/kg (literature)

#### **Acute Toxicity - Inhalation**

LC50 (rat): 38 mg/l/10h (literature)

#### Ingestion

Harmful if swallowed. May be fatal if swallowed and enters airways. Small amounts of liquid aspirated into the respiratory system during ingestion or from vomiting may cause severe pulmonary injury that may lead to death. May cause irritation to the mouth, throat, esophagus and stomach with symptoms of nausea, abdominal discomfort, vomiting and diarrhoea.

Swallowing ethanol can cause drunkenness or harmful central nervous system effects. The deliberate ingestion of ethanol is a known occupational risk.

As little as 50 - 100 ml intake in a shift in a 70kg worker may cause inebriation to the point where safety is impaired. Effects of a small intake may include excitation, euphoria, headache, dizziness, drowsiness, blurred vision, and fatigue. Drinking a large amount may lead to severe acute intoxication, tremors, convulsions, loss of consciousness, coma, respiratory arrest and death.

#### Inhalation

Harmful if inhaled. Inhalation of product vapours can cause irritation of the nose, throat and respiratory system.

#### Skin

Harmful in contact with skin. Causes skin irritation. Skin contact will cause redness, itching and swelling. Repeated exposure may cause skin dryness and cracking and may lead to dermatitis.

#### Eye

Causes serious eye irritation. On eye contact this product will cause tearing, stinging, blurred vision, and redness.

#### **Respiratory Sensitisation**

Not expected to be a respiratory sensitiser.

#### **Skin Sensitisation**

Not expected to be a skin sensitiser.

#### Germ Cell Mutagenicity

May cause genetic defects. Classified as Known or presumed to induce heritable mutations.

#### Carcinogenicity

May cause cancer. Classified as a Known or presumed human carcinogen.

#### **Reproductive Toxicity**

Not considered to be toxic to reproduction.

#### STOT - Single Exposure

Not expected to cause toxicity to a specific target organ.

#### STOT - Repeated Exposure

Not expected to cause toxicity to a specific target organ.

#### **Aspiration Hazard**

May be fatal if swallowed and enters airways.

#### **Other Information**

This product contains an Ototoxic substance. Combination with noise exposure, even at safe levels, could still cause auditory injuries and hearing loss.

#### Section 12 - Ecological Information

#### Ecotoxicity

The available ecological data is given below.

#### Persistence and degradability Ethanol:

Biodegradable, 94% elimination

#### Mobility

See section 12 Persistence/ Degradability

#### **Bioaccumulative Potential** Not available

Other Adverse Effects Not available

**Environmental Protection** Do not discharge this material into waterways, drains and sewers.

Acute Toxicity - Fish Ethanol: LC0 (Golden ide): >1000mg/l/48h

Acute Toxicity - Daphnia Ethanol: EC50 (Daphnia magna) : >1000mg/l/24h

Hazardous to the Ozone Layer This product is not expected to deplete the ozone layer.

#### Section 13 - Disposal Considerations

#### **Disposal Considerations**

Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations. To minimise personal exposure to the chemical, refer to Section 8—Exposure controls and personal protection.

#### Section 14 - Transport Information

#### **Transport Information**

Marine Transport (IMO/IMDG): Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea. UN-No: 3475 Proper Shipping Name: ETHANOL AND PETROL MIXTURE Class: 3 Packaging Group: II EMS No.: F-E, S-E Special Provisions: 333, 363

Air Transport (ICAO/IATA):

Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

UN-No: 3475 Proper Shipping Name: ETHANOL AND PETROL MIXTURE Class: 3 Packaging Group: II Label: Flammable Liquid Packaging Instructions (passenger & cargo): 353 Packaging Instructions (cargo only): 364 Special Provision: A156

This material is a Class 3 - Flammable Liquid according to The Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Class 3 - Flammable Liquids are incompatible in a placard load with any of the following:

- Class 1: Explosives

- Division 2.1: Flammable Gases.

(Division 2.1 and Class 3 are incompatible in transport if both are in tanks or other receptacles with a capacity individually exceeding 500 L)

- Division 2.3: Toxic Gases

- Division 4.2: Spontaneously Combustible Substances
- Division 5.1: Oxidising substances
- Division 5.2: Organic Peroxides

- Class 6: Toxic or Infectious Substances

(where the flammable liquid is nitromethane)

- Class 7: Radioactive materials unless specifically exempted.

ADG U.N. Number 3475

Transport in Bulk Not available

#### Section 15 - Regulatory Information

#### **Regulatory Information**

Classified as Hazardous according to the Globally Harmonised System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

#### **Poisons Schedule**

Not Scheduled

Australia (AICS/AIIC) All components of this product are listed on the Inventory or exempted.

Montreal Protocol Not listed

# Stockholm Convention

Not listed

#### Rotterdam Convention Not listed

Not listed

International Convention for the Prevention of Pollution from Ships (MARPOL) Not available

Agricultural and Veterinary Chemicals Act 1994 Not available

Basel Convention Not available

#### Section 16 - Any Other Relevant Information

#### **Date of Preparation**
